- ∞ Aprovechando el RI de HKU ∞

In the Beginning.., Al comienzo..,

香港大學學術庫 - The HKU Scholars Hub - 香港大學學術庫

HKU ETDs, 1928 ~ 2012

- ☞ 1928: HKU's first PhD thesis, lost during WWII
- ☞ 1941: HKU's first extant thesis.
<http://hub.hku.hk/handle/10722/27222>
- ☞ 1999: Dr Ed Fox visits HKU, and sparks a new idea
- ☞ 2001: HKU Senate creates ETD requirement for Mphil & PhD (research postgraduate)
- ☞ 2002: Other HKU degrees (taught postgraduate) also adopt requirement
 - 950 theses/yr, rpg & tpg
- ☞ Students can choose to opt-out, for up to 3 years
- ☞ 1928: primera tesis de HKU, extraviada durante la Segunda Guerra Mundial
- ☞ 1941: primera tesis conservada
<http://hub.hku.hk/handle/10722/27222>
- ☞ 1999: El Dr Ed Fox visita HKU, y trae con él una nueva idea
- ☞ 2001: El Senado de HKU establece un requisito ETD para MPhil y PhD (posgrado de investigación)
- ☞ 2002: Otras titulaciones de HKU (posgrados de enseñanza) también siguen la misma política.
 - 950 tesis/año, (de investigación y enseñanza)
- ☞ Los estudiantes pueden abstenerse durante un máximo de tres años.

HKU ETDs, 1928 ~ 2012

- 2002: Creation of HKU Thesis Online (HKUTO)
 - 2004: Robots crawl HKUTO from Turnitin, Google and others
 - 2005: Collaborative project with US NSF funded Carnegie Mellon and CADAL, retro scanning of 13,000 HKU theses
 - 2011: A further 1,000 retro theses scanned
 - 2011: The end of HKUTO; all ETDs transferred to The HKU Scholars Hub (HKU's IR)
 - 2012: All print theses transferred to HKU Archives (off site)
- 2002: Creación del Tesis en Línea de HKU (HKUTO)
 - 2004: Turnitin, Google y otros buscadores rastrean documentos en HKUTO
 - 2005: Proyecto de colaboración con US NSF —que ya sponsorizaba a Carnegie Mellon y CADAL— para el retroescaneado de 13.000 tesis de HKU.
 - 2011: Retroescaneado de 1,000 tesis más
 - 2011: El fin de HKUTO; la totalidad de las ETDs se trasladó al HKU Scholars Hub (RI de HKU)
 - 2012: La totalidad de las tesis impresas se trasladan a los Archivos de HKU (ubicados en otro lugar)

Title Quantifying the urban heat island (UHI) intensity in Hong Kong

Authors [Siu, Leong-wai](#)
蕭亮輝

Issue Date 2011

Publisher University of Hong Kong (Pokfulam Road, Hong Kong)

Abstract The definition and quantification of urban heat island (UHI), the air temperature differences between urban and rural areas, remains problematic. This is due, in large part, to the difficulty of operationalizing the terms "urban" and "rural", especially with regard to classifying the weather stations that provide data. This thesis studies the urban heat island (UHI) intensity in Hong Kong and there are three foci in the research. The first focus of this study is the determination of the urban and rural weather stations in Hong Kong. The Local Climate Zones (LCZ) system has been employed to classify 17 weather stations and field observation was the main technique to collect the necessary metadata. Six field trips were arranged in the summer of 2009 and 2010. Hong Kong Observatory Headquarters (HKO) is considered as the only representative urban station, whilst Tsak Yue Wu station (TYW) is deemed as the representative rural station because of its Forest Zone (NCZ1) classification. Ta Kwu Ling station (TKL) is another reference rural site. The second focus is the quantification of the UHI intensities at six pairs of stations in Hong Kong and their diurnal and seasonal variations. The 19-year annual UHI intensities in Hong Kong suggest that the representative rural sites (TYW and TKL) also record representative UHI intensities for the region. The differences of the cooling rate at urban and rural stations drive the diurnal cycle of urban heat island. The seasonal variations of UHI intensities are also driven by the cooling rate differences of urban and rural stations in different seasons. Since the mean maximum temperature is considerably throughout the seasons (0.4 °C/hr at TYW; 0.9 °C/hr at TKL), the cooling rate (1.0 – 1.6 °C/hr at TYW; 0.9 °C/hr at TKL) and seasonal variations of UHI intensities. The UHI intensities in Hong Kong are greatest in winter. The final focus is the quantification of the UHI intensity in Hong Kong. Five meteorological variables (wind speed, vapour pressure, cloud cover, air temperature, and relative humidity) are used to establish their impacts on the UHI intensity. The elements are negatively related to the UHI intensity after the use of stepwise procedures with the following variables. Rural air temperature is consistently negatively related to the UHI intensity. The models also suggest that UHI intensities in spring and summer.

Grant: Reinforced concrete coupling beams with embedded steel plate

General Research Fund (GRF)

Application

Eligibility

Types of Research

Academic Research

- i. Basic research - research for the sake of advancing the frontiers of knowledge regardless of whether it would provide immediate benefit to mankind; and
- ii. Applied research - efforts directed at meeting certain functional requirements which involve the application of theories to specific areas or for specific purpose, and/or enhance man's existence in the short to medium term.

Contact Research

Efforts which would lead to the delivery of a product or process and could involve both basic and applied research, though the latter is much more prevalent. Contract research is client-specific and is generally sponsored and financed by the client who can be either a private company or a public body or the Government.

Anecdotal

Anecdotario

- ∞ I must say that the HKU ResearcherPage team **did an amazing job**. Even without my direct input in the first place, they were able to compile a list of my publications and other accomplishments in a near complete version. After a couple of cycles of communication between the team and myself, I now have a full account of my publications and other accomplishments online that I can share with anyone who might be interested in my research. Best of all, I know that this information **is in the safe hands of trained professionals so I don't need to worry about updating and can spend more time on my research**.
 - Professor, Department of Physiology
- ∞ “Many thanks for your works!!! Based on information of my [ResearcherPage], I was chosen as an editor for a new book "Tumor Suppressor Genes" last year.” -- Doctor, Clinical Oncology
- ∞ Tengo que decir que el Equipo de HKU ResearcherPage hizo **un fantástico trabajo**. Incluso sin mi asistencia directa desde del principio, fueron capaces de compilar una lista de mis publicaciones y otros logros en una versión prácticamente completa. Tras un par de rondas de comunicación entre el Equipo y yo, ahora cuento con una descripción completa en línea de mis publicaciones y otros logros que puedo compartir con cualquiera que esté interesado en mi investigación. Lo mejor de todo es que a sé que esta información está **en las manos fiables de profesionales capaces, y por eso no necesito preocuparme de la actualización, y puedo dedicar más tiempo a mi investigación**.
 - Un Profesor, Departamento de Fisiología
- ∞ ¡Muchas gracias por su dedicación! Gracias a la información de mi ResearcherPage, me escogieron el año pasado como editor de un nuevo libro, “Genes Supresores de Tumores”
 - Doctor, Oncología Clínica
